1. Log in

When starting the application, you have to log in using your employee ID and the given password.

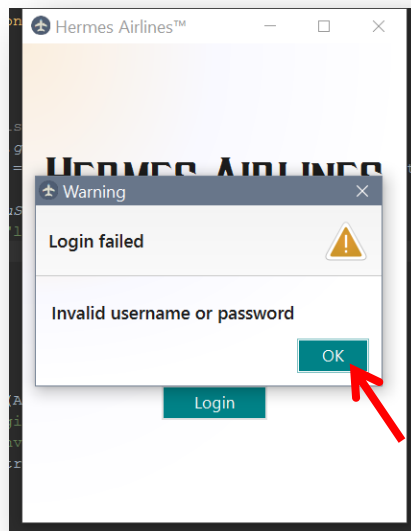

A screenshot of a web browser window titled "Hermes Airlines™". The page has a light blue header with a white gradient. Below the header, the text "HERMES AIRLINES" is displayed in a large, bold, black serif font. Underneath, "Log in" is written in a smaller, bold, black sans-serif font. There are two input fields: the first is labeled "User ID" and the second is labeled "Password". Both fields are white with a light blue border. Below the password field is a teal "Login" button with white text.

Type in your user credentials and press "OK".

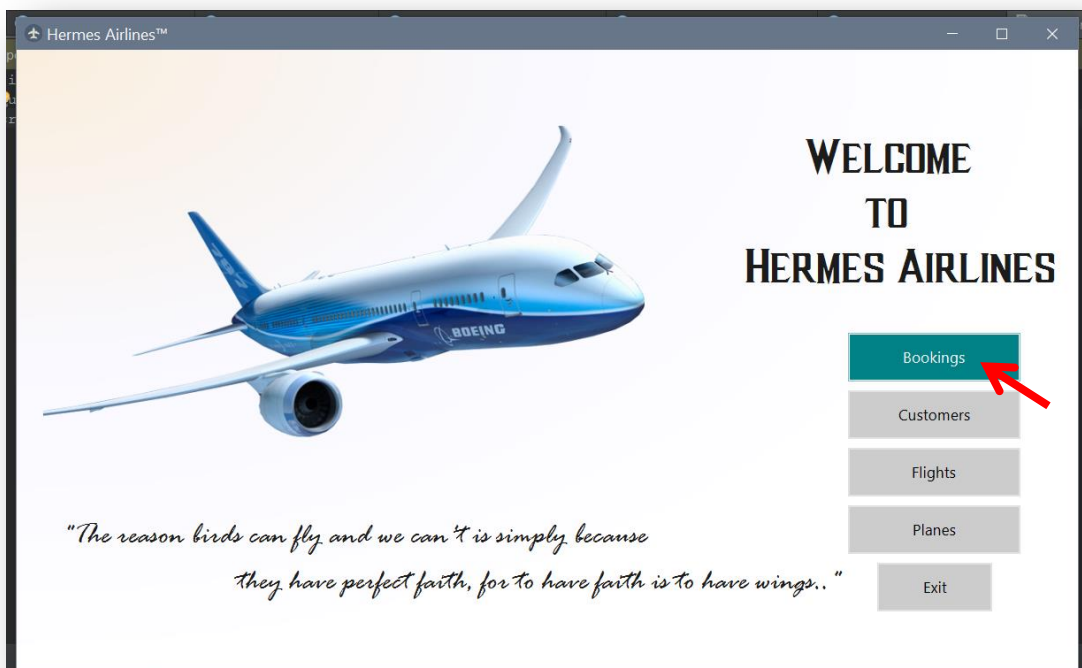

A screenshot of the same web browser window as before, but now with user credentials entered. The "User ID" field contains the number "1". The "Password" field contains three dots, indicating a masked password. The teal "Login" button is still present. Two red arrows point to the "Login" button, one from the left and one from the bottom right.

After a successful login log in the main menu screen will appear. If the input is wrong you will be given an alert and you will have to try to login again.

2.Menu screen

Main menu screen allows user to navigate through the application.

3.Bookings view

Press “Bookings” button to go to the bookings view. Here you can search and view details of a certain booking, edit or cancel existing bookings or you can create new ones.

The screenshot shows the 'Hermes Airlines™ - Bookings' window. On the left, a table lists bookings with columns for Departure date, Route, and Customer name. The row for '2016-06-16, Barcelona (BCN) -> London (LTN), Cristiano Ronaldo' is highlighted. Below the table is a search bar with the text 'search' and a red arrow pointing to it. On the right, the 'Flight Details' section shows: Departure: 2016-06-16, Barcelona (BCN); Arrival: 2016-06-16, London (LTN); Category: Economy; Price: 700.0 kr. Below this, the 'Customer Details' section shows: First Name: Cristiano; Last name: Ronaldo; Age: 40; Passport: I17134098; Phone number: 98817582. At the bottom right are buttons: Add.., Edit.., Remove, and Back.

Press “Add” button to create a new booking. A popup window will appear, where you can select the details, then press “Ok” and the new created booking will be right in the main table screen.

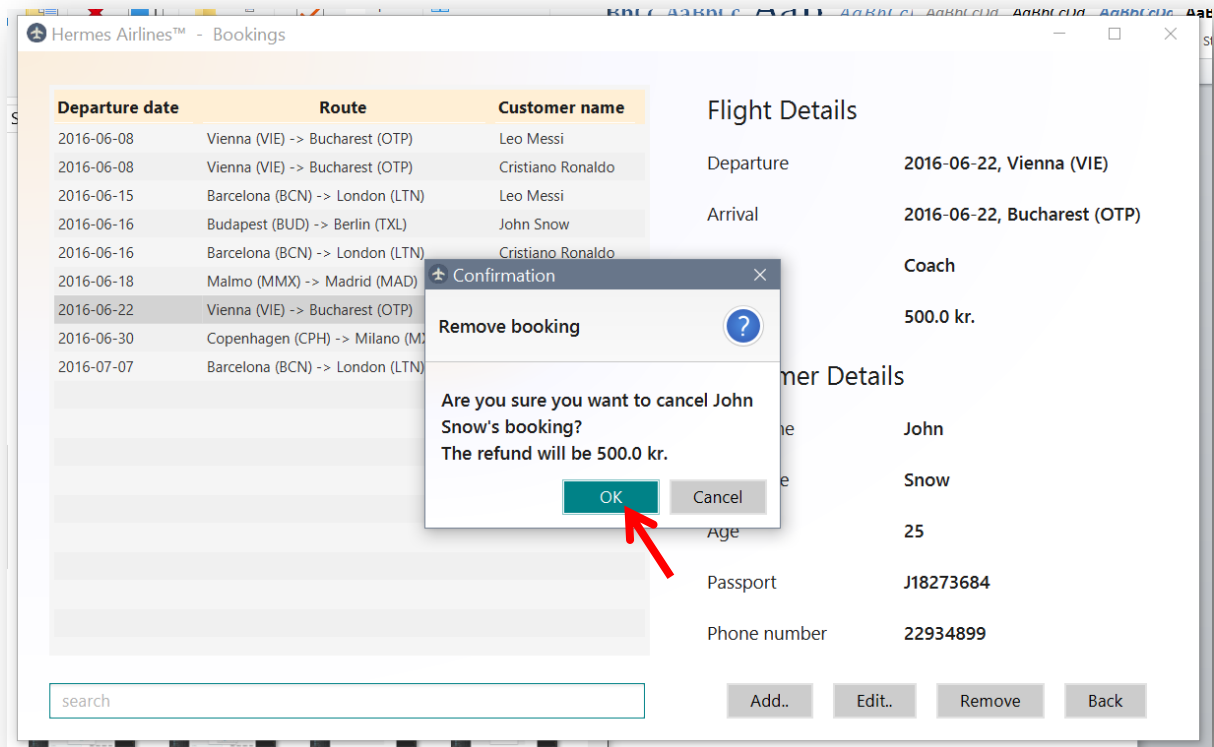

If the customer is not yet registered you can always add him by pressing the “New customer” button. It will pop up a new window where you can enter the customer details, press “Ok” and he/she will be registered and ready to be assigned a flight booking.

After creating a booking it will appear in the table so you can edit it right away, like all the other bookings. Select the desired item and press “Edit”. The booking edit window will popup, here you can modify its details, then press “Ok” to update the booking.

Also the user can cancel a booking (of course according to the company policy) by selecting it and pressing “Remove” button. A popup will appear asking if you want to proceed, informing you about the refund the customer will get in case the cancel is possible. By pressing “Ok” you agree and the booking will be erased.

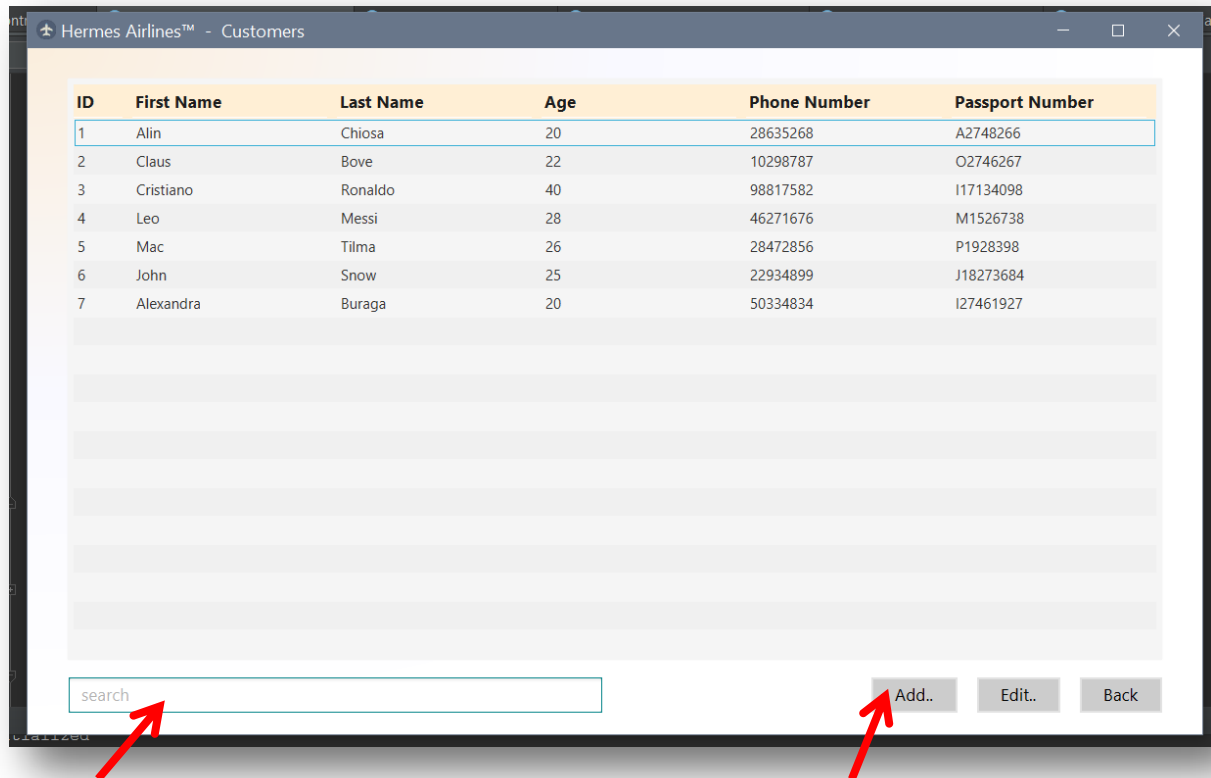

To get back to the main menu press "Back" button. You can access the customers view screen.

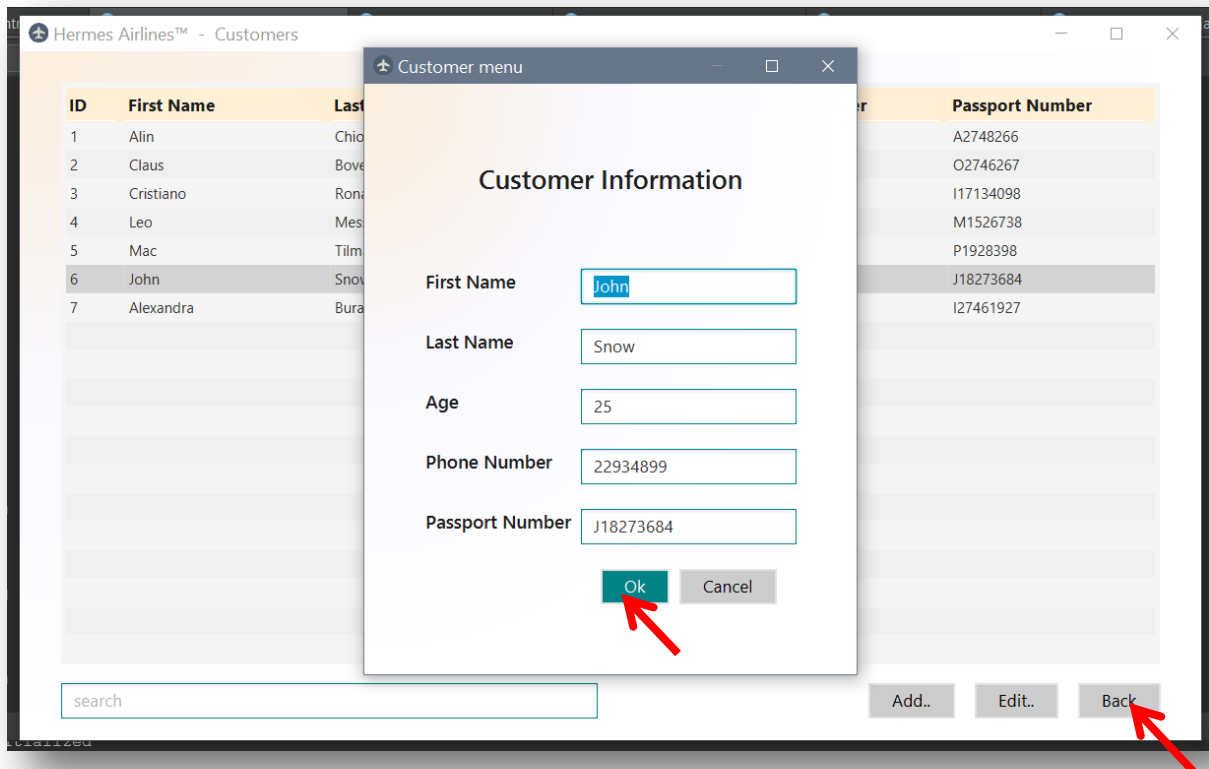

4. Customers view

In this screen you can manage the registered customers.

You can search by name, phone number or passport number by typing in the search bar. To add register a new customer press the “Add” button. Complete the details fields then press “OK” to add him/her to the system. Also you can change existing customer info by selecting in the table and pressing “Edit” button.

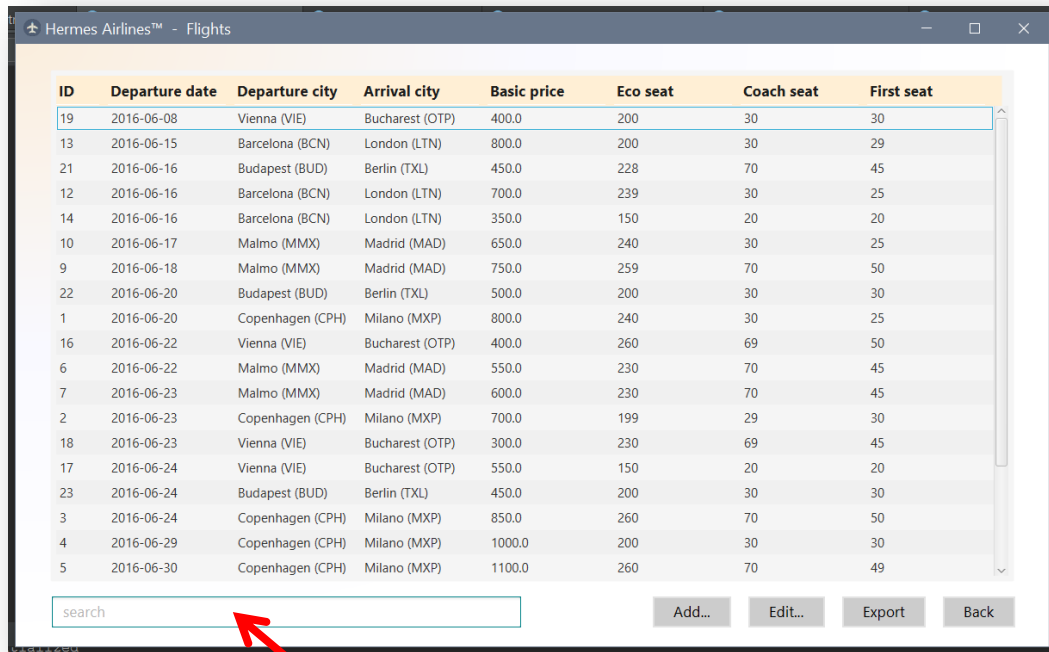

Back to the menu, let's go to the flights view. Press "Flights" button.

5. Flights view

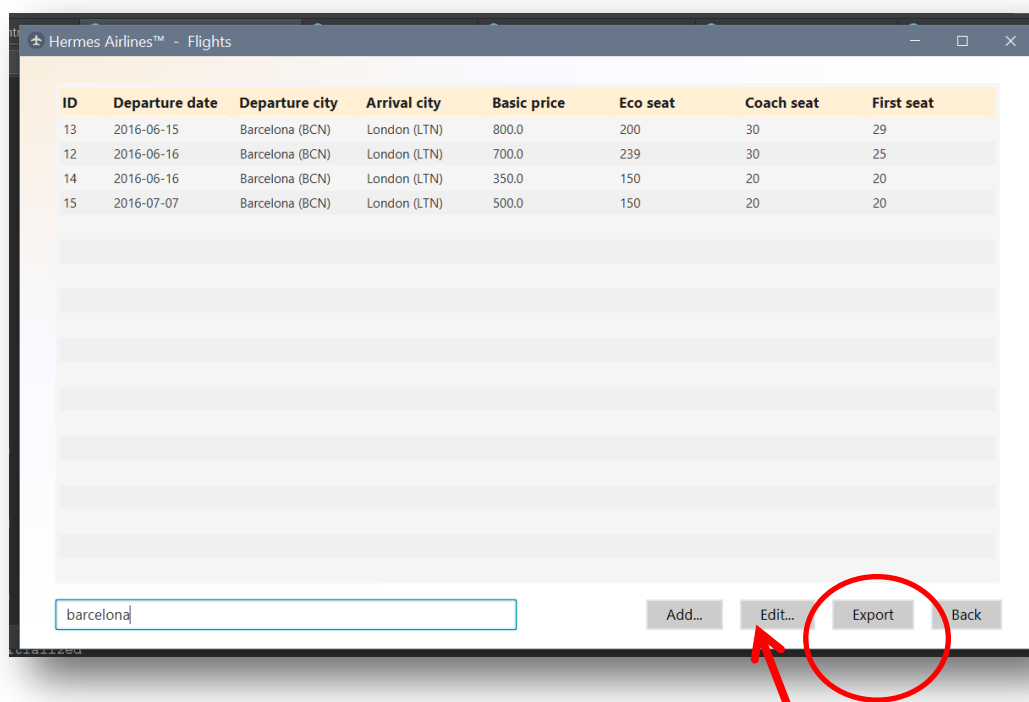

Here user can manage company's flights. They can be easily created, searched, edited, and even exported to a .txt file(OSCA!!).

The screenshot shows a web application window titled "Hermes Airlines™ - Flights". It contains a table with 8 columns: ID, Departure date, Departure city, Arrival city, Basic price, Eco seat, Coach seat, and First seat. The table lists 20 flights. Below the table is a search bar with the placeholder text "search". To the right of the search bar are four buttons: "Add...", "Edit...", "Export", and "Back". A red arrow points to the search bar.

Back to the menu screen. For the most capable users, we implemented the plane view where you can manage your fleet.

6. Planes view

Here you can add, edit and also export the fleet database to a .txt file(OSCA!!).

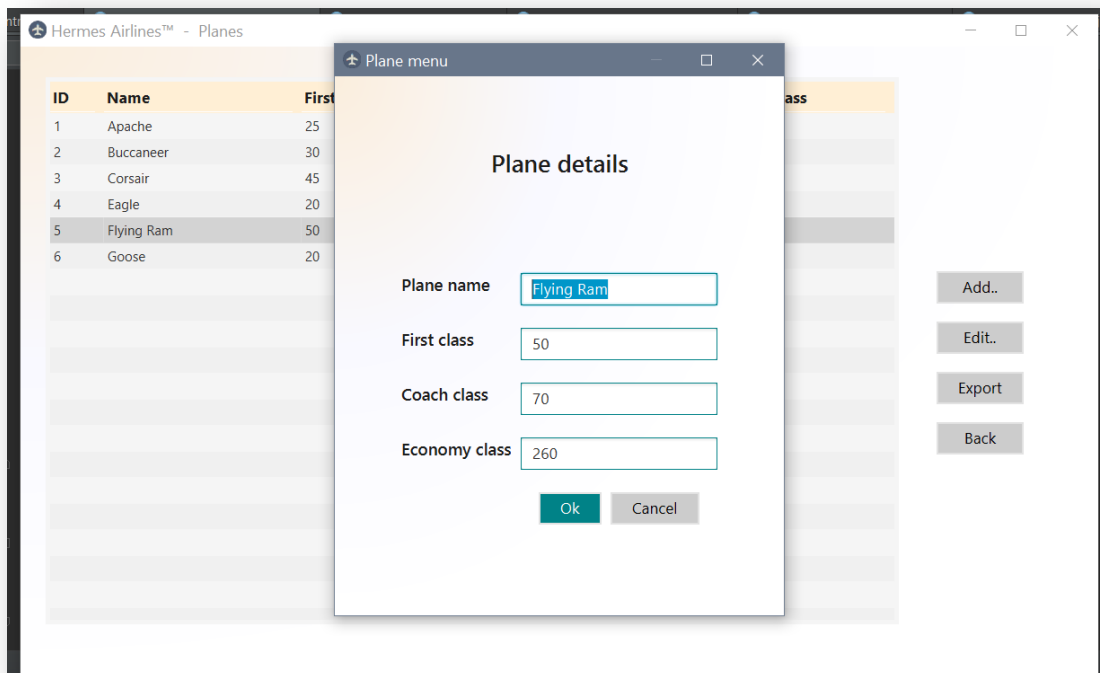

The screenshot shows a window titled "Hermes Airlines™ - Planes". It contains a table with the following data:

ID	Name	First Class	Coach Class	Economy Class
1	Apache	25	30	240
2	Buccaneer	30	30	200
3	Corsair	45	70	230
4	Eagle	20	20	150
5	Flying Ram	50	70	260
6	Goose	20	20	200

Below the table are four buttons: "Add..", "Edit..", "Export", and "Back". A red arrow points to these buttons.

Set the plane name and seats for each fare class.

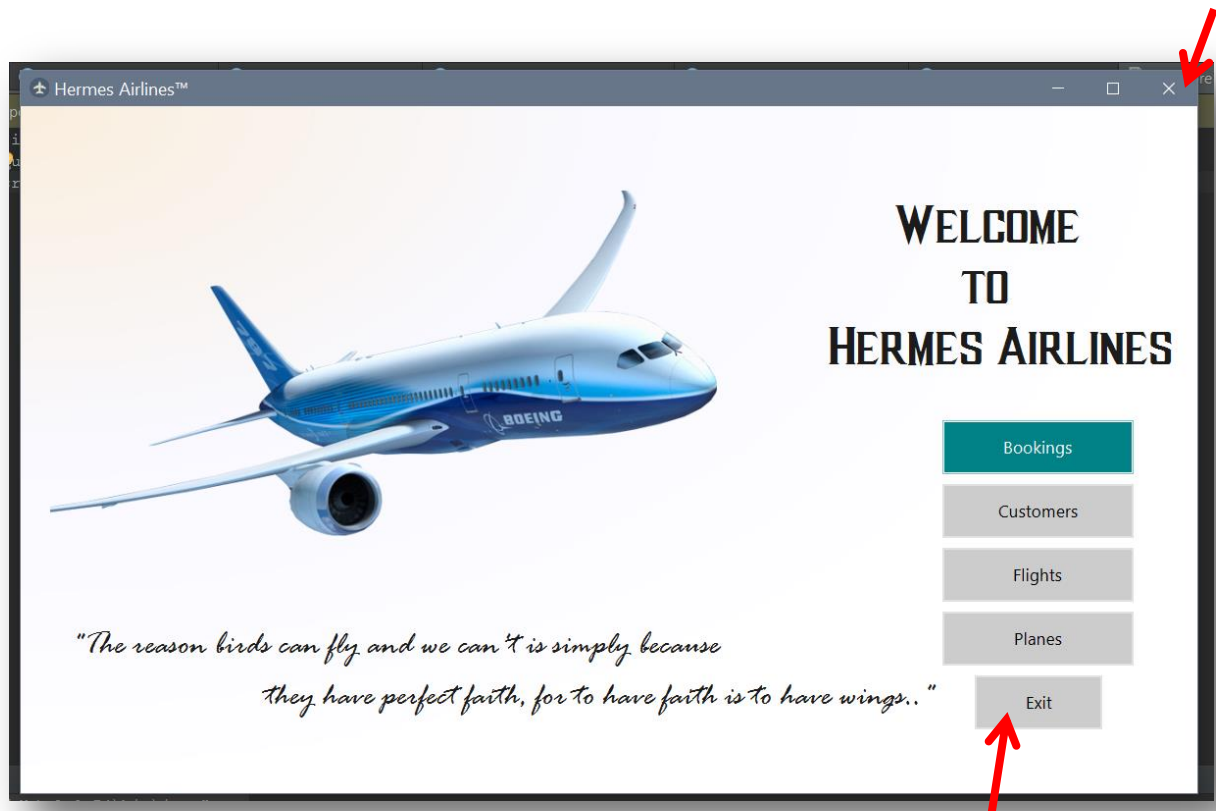

The screenshot shows the same "Hermes Airlines™ - Planes" window, but with a "Plane menu" dialog box open. The dialog box has the title "Plane details" and contains the following fields:

- Plane name: Flying Ram
- First class: 50
- Coach class: 70
- Economy class: 260

At the bottom of the dialog box are "Ok" and "Cancel" buttons.

To exit the program press the corner "X" or go back to the menu screen and press "Exit" button

All the changes are saved in the database so at the next login you're ready to go.
